UKIS Infrastructure, Telco & Utilities

www.ukindustrialstrategy.com

UK Industrial Strategy (UKIS)

The UK Industrial Strategy (UKIS), a private sector-led initiative to create and implement a UK Industrial Strategy.

We do what is best for the UK, using the collective impact of business to make the UK a better place for everyone.

UKIS tackling the UKs biggest challenges

Quality & Cost of Living

The Climate Crisis

Future Skills & Jobs

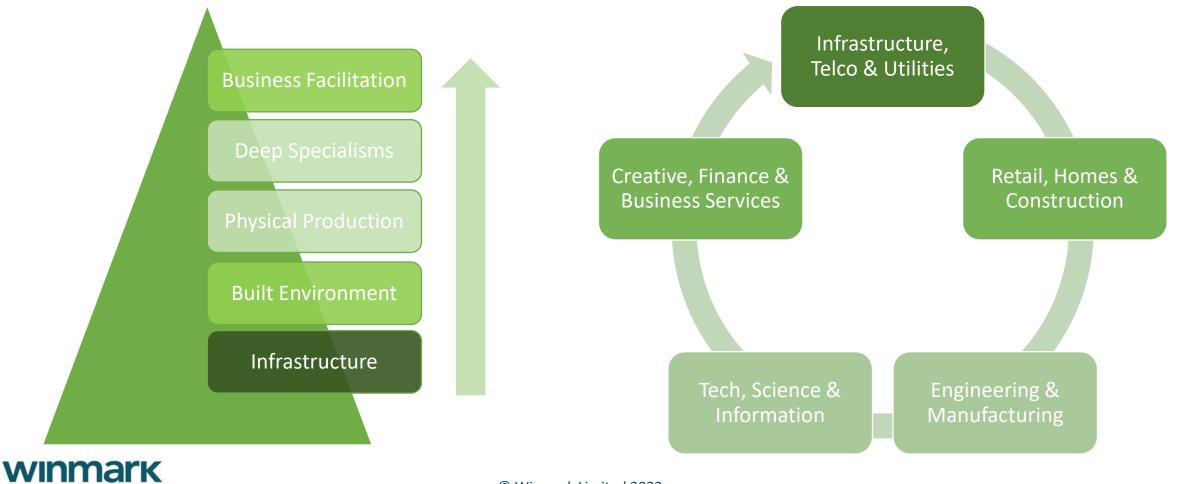

Social Inequality UKIS provides a fundamental role in addressing many of the UKs biggest challenges and will have a legacy that we can all be proud of:

- A country more united, more resilient and better equipped for what the future may hold.
- A country where our grandchildren thank us for doing what was right by them.
- A country where people live better lives, in better places.
- A trading economy where are partners feel well treated and investors rewarded.
- A global reputation of responsible development, encouraging and helping others to do the same.

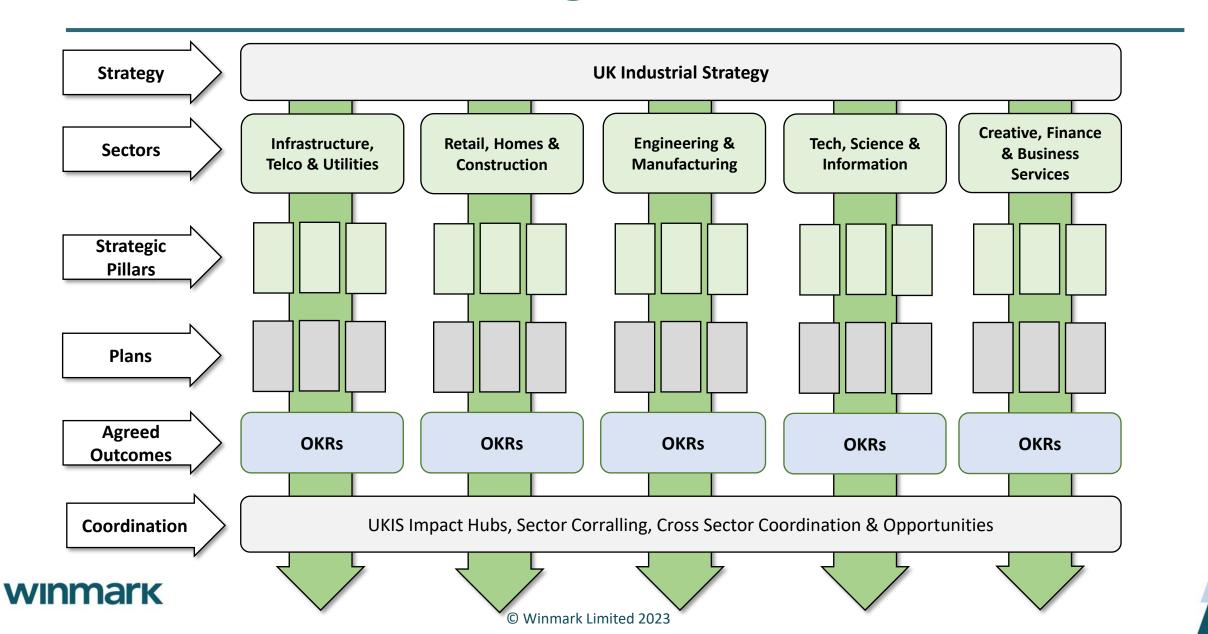

A Five Sector Approach

The 'five sector' framework pulls together high touch sectors that have a significant level of interdependence and interconnectedness with each other. The approach reflects Maslow's Hierarchy of Needs (illustrated below left) and is circular in nature (illustrated right).

The Strategic Framework

Five Phases of Development

Each of the five sector groups will go through five phases of development as illustrated below. We will be flexible in bringing phases forward or delaying them so that we best address needs, seize opportunities and ensure initiatives are aligned

Major Initiatives & Ideas Sharing

Sector Strategic Focus

Plan Drafting & Coordination

Execution Coordination

Review & improve

Aim: To share current major planned initiatives, including outcomes and time frames.

To bring to the surface material ideas that could help.

Start to look at dependencies, opportunities, blockers and resource requirements.

Aim: To agree a small number (2-5) of strategic pillars per sector group, each with their own objectives and key results (OKRs).

To deeper dive into the dependencies and clarify which people and organisations need to be involved to achieve the collective impact. **Aim:** To draft coordinated plans to deliver on the OKRs.

Share overarching plans and reach out to all relevant people and organisations to gain buy-in.

Address financial and resource commitments and share quick wins, great ideas and good practices.

Aim: Corralling the key people and organizations around the OKRs and plans.

Briefing UKIS Impact Hubs and organizing procurement briefings.

Helping and persuading the major parties, including Government, to stay on track and aligned to the Sustainability & Impact Considerations.

Aim: Strategic Pillar progress against the OKRs is monitored and adjustments made.

Coordination with other sectors to improve plans and outcomes.

Strategic process is reviewed and improved every three years, whilst ensuring everyone is included.

19 September Focus

Infrastructure, Telco & Utilities.

Preparation

All attendees should come with their major infrastructure initiatives overarching plans, their timings, related issues and dependencies.

Meeting Details

Venue	Agenda	
 HSBC, Level 6, 8 Canada Square, Canary Wharf, London E14 5HQ 	• 08.30	Arrive & Greetings
	• 09.00	Welcome, Introductions & Purpose
 40-50 Industry Delegates 	• 09.30	Breakout One
 Date / Time 0830 – 1230, Tuesday 19 September 	• 10.30	Sharing of Findings
	• 11.00	Tea & Coffee
	• 11.15	Breakout Two
	• 12.00	Sharing of Findings
Breakout Groups	• 12.15	Next Steps / Next Meeting
 5 Groups of 8 People 	• 12.30	Close & Light Lunch

UKIS Review Process & Outcomes

Pre-Meeting Research

Identifies current major activities and dependencies.

Tracked over three horizons.

Ranking importance and difficulties.

Breakout One

What would you change?

How would it make a difference?

What are the dependencies?

Sharing of findings.

Breakout Two

Refine learnings from Breakout One & Sharing.

Prioritise the initiatives.

Translate initiatives into agreed strategic goals (measurable outcomes).

Meeting Team

EVENT CHAIRS

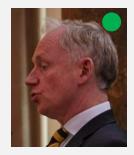

John Jeffcock CEO, Winmark

Alastair Brown
Co-Chair UK Sustainable Finance
Network (ESG)

BREAKOUT ROOM CHAIRS

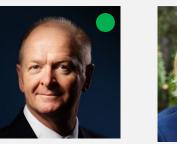

Phil Beach CBE, CEO Energy & Utility Skills

Emma Degg FRSA CEO, North West Business Leadership Team

Mark McAllister Chair, Office of Nuclear Regulation

Neil HaywardNED, The National
Skills Academy for
Rail (NSAR)

Helen Higgs MD National College for Nuclear, EDF Head of Construction Capability

SUPPORT TEAM
